Summary

Senior .NET Engineer with 4+ years of experience in backend development and process automation. Focused on building reliable systems, internal tools, and scalable architectures that streamline business operations. Hands-on developer comfortable contributing across the stack, from system design to implementation. Experienced with .NET, UiPath, and Atlassian tools.

Professional Experience

Technical Manager | .NET Automation

enero 2026 – Present

Servinform

Sevilla, Spain

- Management of multiple development projects, overseeing delivery timelines and ensuring technical quality across solutions.
- Technical supervision and guidance for development teams, supporting design decisions and maintaining high engineering standards.
- Coordination and allocation of developers and analysts across client projects based on skills, priorities, and project requirements.
- Main technical point of contact between internal teams and stakeholders to ensure successful project execution.

RPA Analyst

enero 2023 – marzo 2026

Servinform

Sevilla, Spain

- Conducted detailed process analysis and drafted Process Design Documents (PDDs) and Solution Design Documents (SDDs).
- Collaborated closely with business users to understand their needs and translate them into technical requirements.
- Identified and prioritized key automation initiatives, resulting in significant operational cost savings.
- Provided technical support and troubleshooting for deployed RPA bots, ensuring high availability and performance.
- Collaborated in the development and design of various internal applications, as well as contributing to the architecture of the company's core product.

RPA Developer

septiembre 2021 – enero 2023

Servinform

Sevilla, Andalucía, España

- Developed robust and scalable RPA bots using UiPath Studio, adhering to best practices and coding standards.
- Integrated RPA solutions with diverse applications and systems, including web, desktop, and API interfaces.
- Performed unit testing, system integration testing, and user acceptance testing (UAT) to ensure solution quality.
- Contributed to the creation and maintenance of technical documentation for RPA processes and automations.

Software Engineer

abril 2021 – septiembre 2021

ITURRI

Sevilla, Andalucía, España

- Contributed to the development of new features and functionalities for key software products.
- Assisted in debugging and resolving software issues, improving application stability.
- Collaborated with senior engineers on coding practices and system architecture.

Intern

octubre 2020 – abril 2021

ITURRI

Sevilla, Andalucía, España

- Assisted in data analysis and report generation.
- Supported the development team in various coding and testing activities.
- Learned about software development lifecycle and agile methodologies.

Education

Universidad de Sevilla

Sevilla, Spain

Grado en Ingeniería, Ingeniería de software

2020

- Completed a comprehensive curriculum in software engineering principles and practices., Gained strong theoretical and practical knowledge in programming, algorithms, and system design.

Skills

- | | | |

- UiPath Certified Advanced RPA Developer | UiPath | 2022
- Scrum Foundation Professional Certification - SFPC™ | CertiProf | 2025
- UiPath Certified Professional Infrastructure Engineer Professional – Automation Suite Certification | UiPath | 2023

Projects

Personal CV Website

- Developed and maintained a personal professional website to showcase my resume and projects, demonstrating front-end development skills and web hosting knowledge.

Pointbar

- Web application that allows bars to attract customers and reward the most loyal ones with points through a series of challenges. The points can be redeemed in the bars where they have been obtained for the different products offered. For its realization have been used technologies such as Angular, Django REST framework, AWS, Heroku, GitLab CI... Project carried out by a team of twelve members for the ISPP subject of the Software Engineering degree at the University of Seville. Rating 9.5 over 10; honors mention.
