SUMMARY

Software Engineer and **Technical Manager** with 5+ years of experience in .NET backend development (APIs, services and internal applications) and process automation (RPA). Hands-on across the full lifecycle: from implementation and process analysis to architecture design and technical team coordination. Experienced with .NET, UiPath, Azure and Atlassian tools.

PROFESSIONAL EXPERIENCE

Technical Manager | .NET Automation

January 2026 – Present

Servinform

Seville, Spain

- Management of multiple .NET development and automation projects, overseeing delivery timelines and ensuring technical quality across solutions.
- Technical supervision and guidance for .NET development teams, supporting design and architecture decisions and upholding high engineering standards.
- Coordination and allocation of developers and analysts across client projects based on skills, priorities and project needs.
- Main technical point of contact between internal teams and clients to ensure successful project execution.

RPA Analyst

January 2023 – January 2026

Servinform

Seville, Spain

- Conducted detailed process analysis and drafted Process and Solution Design Documents (PDD/SDD).
- Worked closely with business users to translate their needs into technical requirements.
- Identified and prioritized key automation initiatives, resulting in significant operational cost savings.
- Provided technical support and troubleshooting for production bots, ensuring high availability and performance.
- Designed and developed internal applications, APIs and backend services in .NET (C#).
- Built C# components to integrate with and extend UiPath automations.
- Contributed to the architecture of the company core product.

RPA Developer

September 2021 – January 2023

Servinform

Seville, Spain

- Developed robust, scalable RPA bots with UiPath Studio, following best practices and coding standards.
- Integrated RPA solutions with web, desktop and API-based applications.
- Performed unit, system integration and user acceptance testing (UAT) to ensure quality.
- Created and maintained technical documentation for RPA processes and automations.

Software Engineer

April 2021 – September 2021

ITURRI

Seville, Spain

- Built new features for key software products, taking on more responsibility across a larger number of projects after the internship.
- Debugged and resolved software issues, improving application stability.

Extracurricular Intern

October 2020 – April 2021

ITURRI · Organization and Systems department

Seville, Spain

- Trained in process robotization tools and Azure cloud services; testing and development of technical solutions.

EDUCATION

BSc in Computer Engineering – Software Engineering

University of Seville · School of Computer Engineering (E.T.S.I.I.)

2016 – March 2021

Seville, Spain

- GPA 7.9/10 with 4 honors (matrículas de honor); Final Degree Project graded 9.2.

TECHNICAL SKILLS

Languages

C#, VB.NET, SQL, Python, Java, JavaScript

Frameworks

.NET / ASP.NET, Django, Angular, Spring

Automation (RPA)

UiPath (advanced), Power Automate, Azure Logic Apps

Cloud & data

Microsoft Azure, Google Cloud, SQL Server, PostgreSQL, MySQL, Power BI

Tools & methodologies

Git, GitHub, GitLab, Atlassian (Jira/Confluence), Scrum, DevOps

Leadership

Technical team leadership, project management, client-facing communication

CERTIFICATIONS

- UiPath Certified Professional Advanced RPA Developer (UiARD) — UiPath, 2021
- UiPath Certified Professional Infrastructure Engineer Professional – Automation Suite — UiPath, 2025
- Scrum Foundation Professional Certification (SFPC™) — CertiProf, 2025
- English B2 — APTIS

LANGUAGES

- Spanish: native
- English: B2 (APTIS certified)

PROJECTS

- **Personal CV Website** — bilingual (ES/EN) portfolio and resume site, hosted on GitHub Pages.
- **Pointbar** — web app that lets bars attract and retain customers through challenges and redeemable points. Angular, Django REST framework, AWS, Heroku and GitLab CI. Team of 12 (ISPP course, University of Seville). Graded 9.5/10 with honors.
